## Overview

The health and social care sector is the largest sector in the UK, employing over 4 million people. The industry plays a crucial role in supporting the economy by maintaining the physical and mental health of the wider workforce.

Employers from the healthcare sector have been directly involved in the design of this course. Collaborations with these sector partners are used to explore those skill sets that employers are most interested in and to constantly ensure they are embedded within the delivery of the

Our location in London, with world-class private and public healthcare, boasts more than unrivalled opportunities in the sector.

This course will provide you with a range of opportunities to develop the attitudes, abilities and competencies needed to work in a health and social care environment, both home and abroad. Today's health and social care organisations are exciting, complex, and varied.

you opportunities to use real-life case studies that draw on prioritisation, negotiation, and care planning skills.

You will graduate with a solid sectoral awareness and sound understanding of the interplay between health and social circumstances. This should enable you to take advantage of the many jobs skills that draw on these, and any entrepreneurial opportunities that the sector

## Course Delivery

Our courses are delivered through teaching and learning methods that provide students with the broadest possible exposure to a modern and innovative higher education experience. These methods may vary and could include attendance at lectures and seminars, undertaking trips, other relevant visits, and e-learning through the VLE, our online learning management system.

employing a distinct approach to its delivery. This information is made available to students for
