INDUSTRY EXPOSURE Webinar (Open to ALL)

Industry Exposure Sessions Webinar (Click here to join!)

Industry Exposure sessions are open to ALL students at any point during their courses

Attending a number of these sessions is a requirement for completion of ARU London's Employability Passport Schemes, but you are welcome to attend Industry Exposure even if you choose not to participate in the schemes.

Each term we bring a diverse and dynamic group of employers to speak to students about their career journeys, offer advice on how to break into different sectors, and provide their top tips for success. Some speakers are returning partners, others are brand new and one-off guests.

Feel free to pick and choose the sessions that are most interesting to you, or come along to all of them to hear about sectors you might not have considered before, and help yourself form a broader picture of your career options.
